

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS
MILITARY INTELLIGENCE SECTION

Advance Echelon
APO 500
21 October 1945

386.3 (21 Oct 45) GB

SUBJECT: Handling and Exploitation of Surrendered Japanese Documents.

TO : See Distribution.

1. The provisions of this directive apply to all agencies in Japan and Korea that represent United States interests in the collection of documents.

2. For the convenience of all concerned the following extracts of existing directives are quoted:

a. SOPI NO. 4c, Hq ATPAC, dated 8 August 1945.

SECTION I

BASIC POLICY

2. The examination of Captured documents and prisoners of war under ATPAC is the exclusive responsibility of the theater pool called Translator and Interpreter Service (TIS). Uniformity of procedure and centralized control are essential to the production of the maximum intelligence from captured documents and prisoners of war at all intelligence echelons with the minimum of delay in transmission.

b. Basic Intelligence Plan, "Blacklist" operation, Annex 5d, Hq ATPAC, dated 14 August 1945.

SECTION V

THE HANDLING OF CAPTURED ENEMY DOCUMENTS

THE PROBLEM OF DOCUMENTS:

3. . . . It will therefore be necessary for language detachments to select for evacuation through normal channels to Translator and Interpreter Service, GHQ, only such documents as are of immediate general importance. The remainder will, so far as possible, be left "in place" after arrangements have been made for their safeguarding. Documents which cannot be so left must be carefully collected in central repositories to await final disposition.

BASIC: Ltr, file 386.3, to (Distribution), subj: "Handling and Exploitation of Surrendered Japanese Documents," dtd 21 Oct 45--2.

4. Although they (Intelligence Agencies) are free to collect what documents they require, permission to take them out of the area must be obtained from the Army TIS Advanced Echelon (Document-Interrogation Center) concerned, and the removal registered there. There are represented at GHQ many agencies who will require to see documents for action in Japan before they are evacuated.

7. It will be necessary for all such documents (those dealing with Japanese war effort and organization for warfare) to be specially listed and marked as documents that must eventually be evacuated or destroyed.

DOCUMENT PROCEDURE.

9. A brief summary is given below of the policy to be adopted in handling documents:

(iii) Evacuation through established military channels to TIS, GHQ.

(iv) No documents will be removed by anybody without the permission of the local TIS Advanced Echelon (Document-Interrogation Center).

RESPONSIBILITIES OF ARMIES:

11. (i) Arranging for seizure and safeguarding of documents.

(ii) Detailed planning for the handling of documents throughout their areas of responsibility.

(iii) Establishment of such TIS Advanced Echelons as may be required in addition to those Language Detachments and TIS Advanced Echelons operating with Divisions, Corps, Armies and Task Forces.

c. General Orders No. 9, GHQ SCAP, dated 2 October 1945.

4. The organization and function of technical military intelligence in this theater is designed to accomplish the following primary objectives:

b.
(5) To focus all field agencies of the Ground, Naval and Air Forces through ATIS for all document activity.

5. For effective coordination, the following policy provisions will be enforced by subordinate echelons:

BASIC: Ltr, File 386.3, to (Distribution), subj: "Handling and Exploitation of Surrendered Japanese Documents," dtd 21 Oct 45--3.

e. To protect intelligence materiel and records in limited numbers against exploitation by a single research agency, their removal will be cleared through the Occupation Force Commander, in order to make these items accessible to other intelligence agencies.

3. The following procedure will govern the handling and evacuation of all documents from Japan and Korea:

a. Documents to be evacuated will be selected at target site by occupation force representatives or intelligence team such as U. S. Bombing Survey, Nav Tech Jap, etc.

b. Each intelligence team will be accompanied by an ATIS representative to be furnished by the occupation force commander of the area in which the team is operating. This representative will assist the field team in screening of documents.

c. Documents selected for evacuation will be prepared for shipment, labelled in accordance with par. 4 and turned over to ATIS representatives by collecting agency. Document will then be evacuated through ATIS channels to Tokyo for registration, packaging, and shipment to USA.

d. All documents emanating from Japan and Korea will be processed through ATIS to Washington Document Center, combined Army-Navy library.

e. Duplicate copies selected by field agencies will upon request be forwarded through ATIS to Washington Document Center, thence to desired addressee. No documents will be evacuated directly to agency in United States by selecting agency in Japan.

f. To insure ultimate availability of all documents to all interested agencies, shipping advices of all documents to be evacuated to Washington will be distributed periodically to collecting agencies in Japan, prior to shipment, by Washington Document Center advance echelon at AFPAC.

4. a. To insure the expeditious handling of documents, care will be exercised by selecting agencies in packaging and labeling of documents.

b. Each document or bundle of documents will be accompanied by AFPAC WDIT Form No. 1 completely filled out.

BASIC: Ltr, File 386.3, to (Distribution), subj: "Handling and Exploitation of Surrendered Japanese Documents," dtd 21 Oct 45--3.

c. Two additional copies of the above form will be prepared for each document or bundle of documents and will be forwarded to ATIS separately from documents.

5. Any surrendered documents now on hand in collecting agencies may be retained by the agency as long as documents are being exploited. Upon completion of local exploitation, documents will be forwarded to ATIS in accordance with par. 4.

6. Where documents are required for immediate exploitation locally, ATIS representative with collecting agency will release to team, document with properly completed form attached. Pursuant to par. 4 above, two copies of form will be forwarded to ATIS. Upon completion of local exploitation, document will be evacuated to ATIS in accordance with par. 3, accompanied by copy of such translation as has been completed. Original AFPAC WDIT Form No. 1 will remain attached to document until it is finally delivered to ATIS.

7. The following serial number blocks are assigned:

G-2, Eighth Army	1 - 1000
G-2, Sixth Army	1001 - 2000
G-2, XXIV Corps	2001 - 3000
NavTechJap	3001 - 4000
Econ. & Sci. Sec.	4001 - 5000
U.S. Strat. Bomb Survey	5001 - 6000
Atomic Bomb Survey	6001 - 7000

For the L. C. of S., G-2:

Colonel, Infantry
Chief, WDIT Section
G-2, SCAP

1 Incl: AFPAC WDIT Form No. 1.

26 November 1945

MEMO TO:

1. At the present time a great burden is being placed upon the troops in the field by the necessity of furnishing guards to protect equipment, documents, installations, etc., throughout their areas.

2. In order that this burden be reduced to the minimum, it is requested that you inform us of any building, dump, document, etc., which has been guarded to protect items of interest to your sections and which no longer needs to be so guarded.

3. Should there be any documents in the field which you wish brought to Tokyo for study or for shipment to the United States Document Center, it is requested that you so inform us.

4. Further, should there be any installations or documents in the field that you are particularly desirous of having preserved untouched until you exploit them, it is requested that you notify us with the least possible delay, at the same time stating the estimated date upon which your investigation will start.

For the A. C. of S., G-2:

Colonel, G.S.C.
Chief, WDIT Section
G-2, SCAP
